Bielsko-Biała

FIVA
WORLD
RALLY
2017

Mr. Jacek Krywult
Mayor of the city Bielsko-Biała

Dear Ladies and Gentlemen,

We are happy to inform you that by the decision of FIVA, Polish Motor Association and precisely speaking Automobillklub Beskidzki in Bielsko-Biała, has been chosen to organize FIVA World Rally 2017 which at the same time will be the 40th edition of the International Beskidian Rally of Historic Vehicles. I sincerely hope that you will accept the organizers' invitation and with your beautiful historic cars you will take part in this prestigious event.

The Rally, which is also co-organized by Bielsko-Biała City Council, is not only the occasion to display historic vehicles, but also to get to know the history and the present of our city.

The origins of Bielsko date back to the 13th century. In the 14th century it was granted the charter. At that time several crafts guilds existed. Among which the most dominant was the cloth merchant guild. The brand BS (Bielskie Sukno) was recognized and highly estimated, not only in Europe, but in many other places around the world. At the same time, Biała was granted the charter in the 18th century. The textile industry was also the most important there and it became the main branch of the industry. Until the year 1951 the two towns were neighbors, but they existed independently.

As a united city Bielsko-Biała soon became an important part of the industrial map of Poland. For many years Bielsko and Łódź were two major textile centers in Poland. In 1970's Bielsko-Biała became a powerful automotive industry city due to Polish automobile factory known as FSM.

After the 2nd World War, Bielsko-Biała gained the name of 'the city of hundred industries'. Except for cloth and automotive industry, the electromechanical industry was developing. The products of Apena, Befama or Inducta were well-known around the world.

Today Bielsko-Biała is still one of the most active economic centers in Poland. However many of the former companies no longer exist. The former factories were replaced by the new ones. New factories were established by the largest well known worldwide companies.

Bielsko-Biała is also known as the regional center of culture and sport. It is highly regarded as a tourist city. Bielsko-Biała is probably the only city in Poland which has several mountain peaks within its administrative borders. It can also boast about very interesting architecture, due to which it is called the 'Little Vienna'.

Many events which are periodically organized make Bielsko-Biała a tourist attraction. The Beskidian Rally of Historic Vehicles is one of the most interesting and the most popular events.

I would like to assure you that Bielsko-Biała City Council and all the organizers will do their best to make this jubilee international edition unforgettable.

I hope that the time spent in Bielsko-Biała will leave you with beautiful memories only and you will be willing to come here again.

The President of Bielsko-Biała

Jacek Krywult

Mr. Jacek Balicki
Vice President of
Automobillklubu Beskidzkiego

Dear Ladies and Gentlemen,

The origins of Beskidian Rallies date back to the year 1977 when we, several enthusiasts, organized the 1st Beskidian Rally of Historic Vehicles. That year only seven crews had appeared but as the years have been passing, more and more participants from Poland, the Czech Republic, the Soviet Union, Hungary, Austria, Germany (DDR and BRD), Sweden, Holland and France have been coming. The times have been changing, the presidents of Bielsko-Biała have been changing, and even the political system in Poland has changed but we, in spite of many financial and organizational difficulties, have never cancelled any of our Rallies. The vehicles which then used to be brand new, have become wanted 'classics' now. Throughout all those years we have been gaining experience and, although the years have been passing, we have neither lost the energy nor willingness to keep organizing our Rallies to which the preparations take almost a year. I must admit that without the help of our wives and our children (who have been always with us from the very beginning) and many dedicated organizers, the continuation of our Rally wouldn't be possible.

We are particularly glad that among the participants of our Rallies are crews that took part in our first Rallies. Many of them have been participating in more than fifteen events. We are also happy that from year to year the participation of the foreign crews is more and more numerous.

We put the main stress on the attractiveness and the variation of the route so the beautiful views and historic monuments seen during the Rally remain unforgettable in participants' memory. Performed driving skills trials and entertaining tests will help us to award winners in respective age groups. Yet, the most important, are the participants who come with their gorgeous historic vehicles from all parts of Poland and from different countries. For all participants we strive for excellence so that the high standard accommodation, delicious food, evenings spent together and additional attractions encourage them to come again.

The year 2017 will be special for us because by the decision of FIVA, Polish Motor Association and precisely speaking Automobillklub Beskidzki in Bielsko-Biała, was honored to organize FIVA WORLD RALLY 2017, which will be held under the honorary patronage of the President of Bielsko-Biała.

The event will take place from 4th to 9th July 2017 and the base will be located in Hotel Meta **** Resort Wine Spa in Szczyrk.

FIVA WORLD RALLY 2017 will merge from 7th to 9th July with the 40th International Beskidian Rally of the Historic Vehicles. If you cannot participate in FIVA WORLD RALLY 2017 we invite you to take part in jubilee 40th International Beskidian Rally of Historic Vehicles. The full information about this event will be sent in a later date.

I cordially invite you to attend the FIVA WORLD RALLY 2017.

Yours faithfully,

Jacek Balicki
